### MOBILE WARFARE DOCTRINE

Mobile warfare is a focus on speed and maneuver to cut off and disorganize enemy forces.

MOBILE INFANTRY | BLITZKRIEG

DESPERATE | MODERN

### SUPERIOR FIREPOWER DOCTRINE

This doctrine focuses on throwing shells, not men, at the enemy. Our manpower is precious, bullets are cheap.

DISPERSED SUPPORT | INTEGRATED SUPPORT

AIRLAND BATTLE | SHOCK & AWE

### GRAND BATTLEPLAN DOCTRINE

Extensive planning and preparation before engaging in battle is the key to success.

### MASS ASSAULT DOCTRINE

"Perfect" weapons are overrated, a large number of "good enough" weapons is the path to victory!

DEEP BATTLE | MASS MOBILIZATION!

**People's Army** 219 day(s) RESEARCH

The People's Army believes in the primacy of man over weapons, with superior motivation compensating for inferior technology, and enjoys widespread support from the civilian population.

Mutually exclusive with *Large Front Operations*.

Really good game, i got it on sales ples sub to my channel: Juke MC. A very cute game, and I get the sense that there's a lot more to it than meets the eye, but sadly I don't think I'll ever get to see it. Fitz the Fox is fun at first, feeling a lot like the classic Super Mario Land games, but there's one thing that sets Fitz apart from the plucky plumber: He's sluggish.

Controlling Fitz may seem fine early on, when the game is throwing slow moving enemies and jumping puzzles your way, but when you get to the world with blocks that crumble when you stand on them, a old-time platformer staple, suddenly the difficulty ramps up steeply. The blocks require frame-perfect timing to get off of before the crumble, and Fitz has about a 1 frame delay between when he lands and he can jump again. Coupled with the lives system and having to restart a world when you game over, this is the point where I gave up.

Call me a filthy casual if you want, but replicating the feel of old games doesn't mean you also have to replicate their worst elements. Maybe if things were tweaked a bit, I could recommend Fitz the Fox, but as it is, it's just frustration without reward.. Totálna pičovina. ALT+F4. give me badges :)). A solid boardgame gone digital, but I think \$28 is a bit overpriced. Pick it up at a sale, it's good fun, not too deep or complex.. This is fun if you want to make an old RPG. RPG maker XP is better but I LOVE the RPGMaker 2003 assets. The music, sprites and art are such a joy.. This was amazing. I've loved the original game for years now and this version only made it better. With beautifully improved graphics and a very welcomed increased difficulty mode which offers plenty of new ways to die, I recomend 'The Witches House MV' for fans of the original, and to anyone who is curious about what this game entails.. You really don't need to know anything. Worth a grab.. It'd weird but a good horror game for an hour

---

The game might be fun, ... to some people. The mechanics is tough. The items have specific and not precise targeting points. You need to hit exactly at one point to demolition a wall or something.. Could not get into the game. Was greeted in Chinese and could not get past the first window.

Save your money. I will be requesting a refund. Don't waste your money - terrible AI ! I put on easiest mode and still my hit rate was so poor and the enemy seems to be able to use regular rifle and hit what my sniper can't hit. And no matter if hidden or not, one of their guys will come right up to you as though they can see through walls and kill you. I had 3 guys side by side, one in overwatch and enemy walked right up and kill my guy with no damage. I have 2 guys within 1 space of enemy , both fired and both missed or got almost no damage and then he killed on of my guys. I am attacking a base and I worked through 8 enemies with my 3 , greatly wounded and then 6 more enemies just popped up, killed 2 of my guys quickly, and now I have 1 guy to kill 6 ... quit to desktop was my next move. I have played both XCOM 1&2 w/DLCs so know how it is supposed to work. Spend your money on another XCOM2 DLC vs. this game... amazing how they seem to make games look great with slick intro. , then you open pkg to find a POS inside. They need to fix the AI and charge \$5 before I could recommend.. A very realistic life simulator. Fun and educational.. This game has a fancy graphic and it's a fair and competitive deathmatch. I reccmend this game!!

CONS: not a lot of people play this game :( Unless something has been fixed, this game does not work on macs. On top of that, you have to wade through crud to try and figure out where to get help (which ends up being not Steam but Her Interactive), and I'm currently several months in without ever receiving an actual response or solution to get the game running.
